

REACH Compliance Statement
-
ixblue Modulation System Division

The Lithium Niobate Electro Optic Modulator are in compliance with European Union Regulation 1907/2006 on the Registration Evaluation Authorization and Restriction of Chemicals (REACH).

Based on information provided by our suppliers, ixblue Modulation System Division designates these products as REACH compliant for orders based on or after the date of this certification.

REACH compliant means that:

- The Lithium Niobate Electro Optic Modulator are categorized as articles under the REACH Regulations.
- It is not intended that these products release substances during normal and reasonably foreseeable condition of use.
- Regarding the substances of Very High Concern (SVHC) updated candidate list recently released by European Chemicals Agency on January 16, 2020, ixblue Specialty Modulation System Division products do not contain more than 0.1% by weigh per article of any substance on the SVHC candidate list.

The European Chemicals Agency (ECHA) SVHC candidate list is available at:
<https://echa.europa.eu/fr/candidate-list-table>

We will continue to monitor the status of the candidate list as part of our on-going compliance activities, including the possible need under Article 33 of REACH to inform product recipients and consumers if an article contains more than 0.1% by weight per article of any substance that is added to the SVHC candidate list in the future.

Besançon, the April 30th, 2020

Henri PORTE
VP ixBlue Modulation System Division
